

MOKASH KUMAR

Computer Systems Engineering Student | Software Development & Applied AI

Hyderabad, Sindh, Pakistan | mokshkumar38@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Computer Systems Engineering student building practical web applications with React, JavaScript, Supabase, and PostgreSQL while developing applied AI/ML skills. Developed deployed projects for attendance management, academic-result lookup, and fare prediction, with a focus on testable business logic and maintainable documentation. Working toward a career in AI engineering and seeking software engineering or AI/ML internships.

EDUCATION

Bachelor of Engineering in Computer Systems Engineering | August 2024 - Present
Mehran University of Engineering and Technology (MUET)

SELECTED PROJECTS

SmartCR | React, JavaScript, Zustand, Supabase, PostgreSQL, Vite | [Code](#) | [Live](#)

- Built an attendance workflow with student imports, absence-first session recording, subject history, low-attendance calculation, and multi-format exports.
- Implemented Supabase row-level ownership policies and focused tests for attendance calculations, threshold behavior, parsing, and duplicate handling.

MUET Results Portal | JavaScript, Node.js, Vercel Functions, CSV, Zod | [Code](#) | [Live](#)

- Built GPA lookup, semester history, dense batch ranking, static page generation, and an authenticated coordinator workflow using synthetic public demo data.
- Separated ranking and CSV compilation into testable modules with checks for grade boundaries, invalid GPA values, duplicates, validation, and authentication helpers.

Rickshaw Fare Predictor | Python, Pandas, scikit-learn | [Code](#) | [Live](#)

- Prepared a transport-fare dataset, trained a regression model, and connected the prediction flow to a deployed web interface.

EXPERIENCE

Head Director of Videography - Hult Prize MUET SZAB | January 2025 - March 2025

- Planned media production and coordinated recording and post-production work across the event team.

Video & Audio Editor - MUET FM 92.6 | August 2024 - January 2025

- Edited promotional video and audio content for university radio and social channels.

Conference Volunteer - 1st International Conference on IICT | January 2026

- Supported event operations and a hands-on CI/CD workshop for conference participants.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS

Backend & Data: Node.js, Supabase, PostgreSQL, REST APIs, SQL, CSV pipelines

Testing & Tools: Vitest, Node test runner, Git, GitHub, Vite, Vercel

AI & Programming: Python, Pandas, scikit-learn, regression, C++, Java

SELECTED CERTIFICATION

Google Data Analytics Professional Certificate | Google
